

# **FlowCon CA Prop65 Compliance Declaration**

05.2024

FlowCon International ApS is the supplier of HVAC valves, inserts and accessories. This General Statement covers all products manufactured by FlowCon. If a product specific (by part number) declaration is required, please contact FlowCon.

CA PROP65 (California Proposition 65, officially the Safe Drinking Water and Toxic Enforcement Act of 1986) is the California chemical substances regulatory framework. CA PROP65 does not prohibit sales of products containing hazardous substances at any level. It merely requires that if listed chemical substances are present at recognized risk levels that this is informed.

With this General Statement, we declare that, all products manufactured and supplied by FlowCon do not contain substances listed on the proposition list except lead which is used in brass alloys. The lead content is 2.0-3.0% of any brass used in valve housings, headnuts, p/t plugs, flushing caps etc. In addition a DZR brass alloy is available for housings; this dezincification-resistant brass alloy also incl. 0.02-0.15% Arsenic. These lead products are not used for drinking or potable water

If You have any further questions, please do not hesitate contacting FlowCon again.
