

FlowCon FN.0.3 and FN.1.4 released - 3-point floating electrical actuators for FlowCon Green valve range.

FlowCon International releases:

- **FlowCon FN.0.3**
230V, 3-point floating actuator
- **FlowCon FN.1.4**
24V, 3-point floating actuator with failsafe.

Both actuators are suitable for the FlowCon Green valve range.

The latest additions to the FlowCon FN actuators complete the FN range of actuators allowing connection of the FlowCon Green PICV to virtually every control system available.

The latest introduction to the FN actuator range naturally holds the same state of the art features - as previous versions - such as:

- IP54 rating
- Position indicator
- Manual overwrite
- Click on/off function.

Technical information about the products is available for download at www.flowcon.com.
